Jake Oates- Price Quote:

After adding up the fees of the dump and paying my guys we would be at 1000 to cut all three of those trees down and put stump killer in the stumps so that they will route out

3-trees being removed and hauled out for \$1,000 is a good price.

Dead trees need to be removed before they fall, (cost more to get the 1 out of the pond if it falls, the other could fall on someone walking)
